

Handout
4 – 6
Section 26

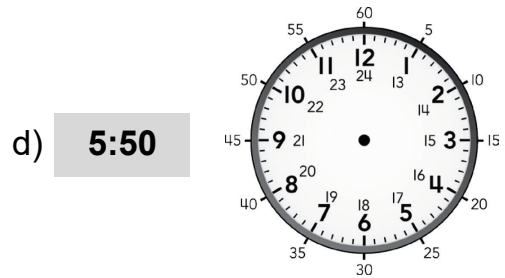

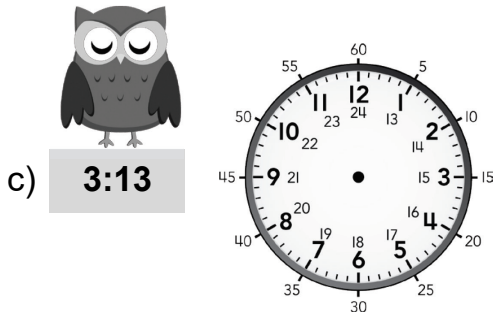

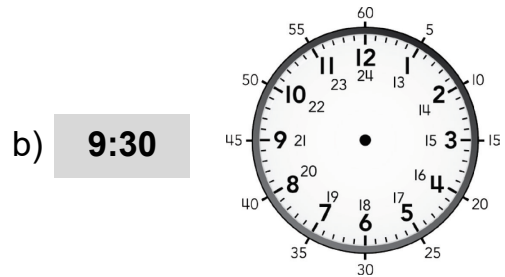

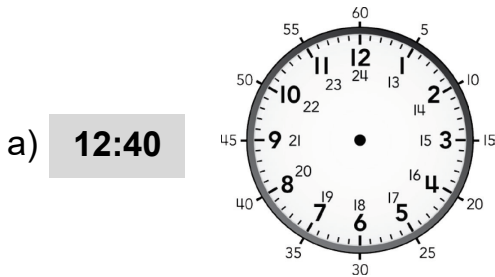

Reinforcement

**Units of Measure for Time – Telling Time –
Volume, Capacity, Mass**

1. Write the time shown on each clock.

2. Draw the little hand (hours) and the big hand (minutes) on each clock.

3. Convert the time measurements.

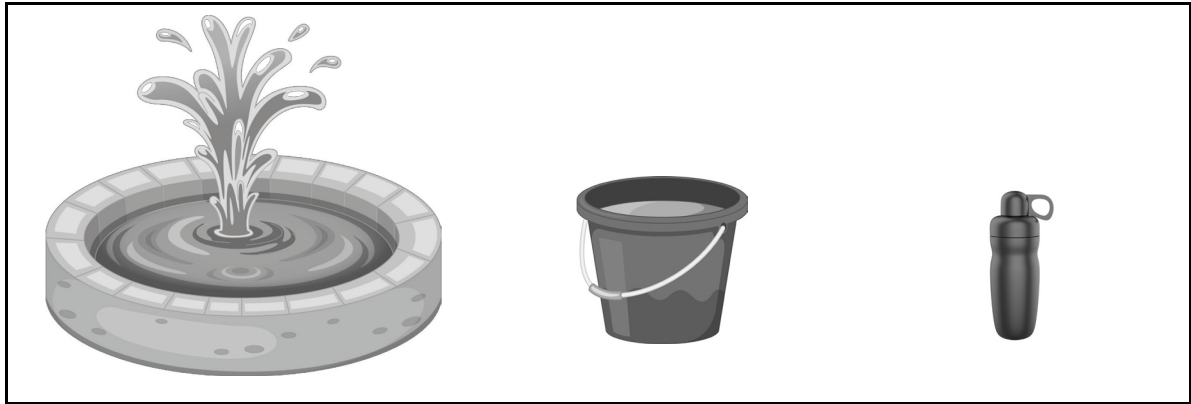

a) 3 years is equal to months.

b) 120 minutes is equal to hours.

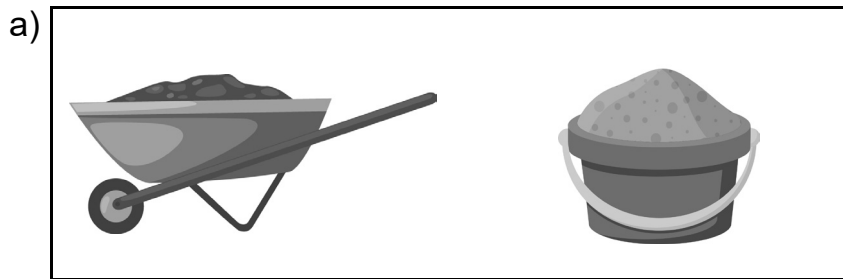

c) 21 days is equal to weeks.

4. Draw an X on the container with the smallest capacity.

5. Draw an X on the object with the smaller mass.

6. Put the boxes in increasing order of volume.
