Units of Measure for Time - Telling Time Volume, Capacity, Mass

1. Write the time shown on each clock.
a)

b)

8:13 a.m. OR 8:13 p.m.
2. Draw the little hand (hours) and the big hand (minutes) on each clock.
a)
12:40

b) $9: 30$

c)
3:13

d) $5: 50$

3. Convert the time measurements.
a) 3 years is equal to 36 months.
b) 120 minutes is equal to 2 hours.
c) 21 days is equal to
